Abstract

The invented drug uses glossy ganoderma, safflower, leaves of Chinese mugwort, prepared monkshood, root of Chinese clematis, spongilla fragilla, longspur epimedium, silk moth, cnidium fruit, and white pepper as raw material and is made up through crushing, sieving, mixing, filling in the inner bag, plastic sealing and putting in the outer band. It can warm the kidney, invigorate yang and control nocturnal emission. Indications: impotence, premature ejaculation, lumbago caused by kidney deficiency, climacteric syndrome. The advantages are convenient for applying, obvious curative effect and capable of treating externally for inner disease.
